WARRANTECH JOINS FOR SALE BY OWNER RESOURCES NETWORK

Home Warranty Program Targets Cincinnati and Northern Kentucky Property Owners

CINCINNATI (Sept 10, 2008) — Warrantech Home Service Company, a subsidiary of Warrantech Corporation, announced that the company is joining the For Sale By Owner Resources, LLC (FSBOR) Network of Partners which helps clients seeking to buy or sell a home. Beginning this month, property owners in Cincinnati and Northern Kentucky will be able to purchase Warrantech Advantage, the nation's most comprehensive home warranty program through FSBOR's Network of Partners.

In an exclusive agreement with CINCYHomeforsale.com and NKYHomeForSale.com, Warrantech Advantage will be the only home warranty program endorsed through the For Sale by Owner Resources websites. In a program developed especially for FSBOR clients, Warrantech Advantage is recommended as a way to facilitate property sales while adding

significant value to a home by guaranteeing the working condition of appliances and home operating systems. Not only does a Warrantech Advantage home warranty protect against mechanical breakdowns of appliances, heating, air conditioning, electrical and plumbing systems, but it also makes the home more attractive to buyers.

“Today, many property owners are deciding to sell their own homes without the help of Realtors,” said Joel San Antonio, CEO of Warrantech Home Service Company. “For Sale by Owner Resources helps these homeowners move seamlessly through the process of buying or selling a new home. We are pleased to partner with the Cincinnati and Northern Kentucky offices of HomeForSale.com, and are excited that this company is recommending Warrantech Advantage warranties to their entire clients.”

“At For Sale By Owner Resources, we are on constant lookout for ways to help our clients realize the highest value for their home,” said Ronald Pies, Jr., owner of For Sale By Owner Resources, LLC. “Not only do we show people how to sell their homes, but we have developed a Network of Partners that can help our clients have access to the best home services available in the Cincinnati and North Kentucky markets. Given Warrantech’s reputation for high-rated customer service, we are happy to add the Advantage Home Warranty to our Network of Partners.”

Statistics show that homes with warranties sell faster than houses without coverage noted Bryan McDonald, director of sales for Warrantech Home Service Company. “Our goal is to help For Sale By Owner Resource clients increase the marketability of their home and compete more effectively with other listed FSBOR properties in addition to Realtor-listed houses within the Cincinnati/North Kentucky market,” McDonald said.
